

ABSTRACT**ELECTRONIC DOCUMENT MAPPING**

A method of mapping the identity of at least one electronic document, the at least one electronic document having a resource locator, the method including the steps of:

- (a) receiving a request for an alias of the resource locator from a client;
- (b) recovering the resource locator from the alias resource locator;
- (c) retrieving the at least one electronic document at the resource locator;
- (d) creating a new alias resource locator; and
- (e) returning the electronic document under the new alias resource locator to the client.
